CUSTOMER CONVERSATION TRANSCRIPT

Paste what the customer said so far, e.g.

Customer: I can't log in after resetting my password.

Copilot assists **you** (the human agent) — it drafts replies, summarizes threads, and flags escalations. It does not talk to customers directly.

INTEGRATIONS

Optional API keys — stored encrypted on this server. Leave blank to keep existing values.

CUSTOMER TRANSCRIPT

Edit

Paste the customer conversation in the sidebar to give copilot full context.

● COPILOT MODE

Assist smarter.

Real-time reply drafting, thread summaries, and escalation guidance. Paste the customer transcript to unlock full context.

01

Draft a reply

02

Summarize thread

03

Flag escalation

Ask copilot: draft a reply, summarize thread, or flag escalation...

Send

03

Request transfer

Type caller speech or tap mic...

🗣 Speak

Built to work with the tools you use

Connect and scale AI-powered operations across your stack — CRM, ticketing, telephony, BI, HRIS, and more. Every integration in our catalog ships with a native Nexus adapter.

62

Integrations

62

Native connectors

Data orchestration

Ingest conversation data and enrich it with CRM context. APIs and webhooks support complete sync at scale.

Workflow optimization

Route insights, summaries, and sentiment into CRM, BI, and data lakes via native connectors or n8n/Zapier.

Enterprise-grade security

Encrypted credential vault, signed webhooks, token location, and HIPAA-ready deployment options.
